

From the Very Reverend Archpriest Mark Templet to the Most Reverend Archbishop Andrei, sent on November 17, 2025 (NS):

Im afraid you have been misinformed. I have no such intentions. This only illustrates the problem that we're in.

From the Most Reverend Archbishop Andrei to the Very Reverend Archpriest Mark Templet, sent on November 18, 2025 (NS):

I'm glad to hear that I have been misinformed.

It is a problem of lack of communication, which I feel acutely. I left Louisiana thinking that all was well between us; that we had discussed and resolved all of our miscommunications.

Since you seem to have held a secret meeting on Sunday, without getting a blessing first, and telling the people at that meeting not to speak about what was said at the meeting, I don't know what to believe. You have started a very serious series of actions with your letter which threatens the eternal salvation of the souls that came to us for guidance. People are torn now, scandalized and confused. You don't seem to think that my opinions are worth much. You seem to value the opinions of the heretics of the GOC-K more than ours in the ROAC. It seems to me that your idea to go to the GOC-K is something that you have been planning for a long time, and have been keeping me in the dark about it. I would like to hear from you that I am wrong about my misgivings.

I ask you again, for the sake of the salvation of yourself and of all involved, to recover from this reckless path and return to the service that you swore to do in our Church.
